Who We Are

Vizyon Media is a technology-based media startup focused on providing quality content and journalism internationally by offering well-researched, and evidence-based content. Founded in Cleveland, Ohio, our goal is eliminating the global information gap in thousands of news deserts and informationally underserved communities.

A person is sitting at a white, round table in a modern office or lounge area. They are wearing a dark hoodie and colorful sneakers, and are focused on working on a laptop. The background shows a blue sofa and a colorful, geometric wall decoration.

The Internship

We are now accepting a small group of interns to join us this summer for a 10-week remote internship opportunity. Interns will be exposed to a live business environment where they will gain comprehensive experience on the daily activities required to start and run businesses in a globalized economy. Our interns are tasked with various duties depending on their selected track, including marketing material design, translation, documentation creation, code challenges and more.

All students studying fields related to international relations, business, journalism, computer science and design are encouraged to apply.

Intern Track: Technology

Technology Track

Interns admitted into the technology track will be paired with our team of experienced software developers as they handle daily tasks in website and software development. TC Interns will undergo code challenges, code reviews and learn valuable skills in UI/UX Design, search engine optimization, frontend / backend web development along with blockchain technology development .

Intern Tracks: Business

Business Track

Business Track interns are paired with our executive management team and will get a birds-eye view of the inner workings of the modern startup. BT Interns will sit-in on meetings on marketing strategy, business planning, human resources and gain experience from experienced sales people, engineers, marketers and legal professionals.

Intern Track: Global Relations

Global Relations

Our Global Relations Track puts interns in the center of operations of Vizyon Media. Our organization employs a team spread across 3 continents, 4 countries and speaks a total of 6 languages. This opportunity gives interns to learn how global companies function, the importance of localization in global marketing and how to work in a multilingual and ethnically diverse organization. Interns on this track will be tasked with content localization, website translation duties and more.

Intern Track: Design

Design Track

Our Design Track pairs admitted interns with our frontend/design developers and marketing department as they create marketing material, web designs and experiment with UX/UI Design theories. Interns will assist our team in vector and raster creation and gain experience working in design teams.

Requirements

Interns Must:

- Have a high school diploma / GED equivalent
- Be currently enrolled in a college or university
- Be able to commit 10 hours a week to internship
- Major in a field of study related to any of the 4 internship tracks
